A card that fits in with your business travel plans.

Dear Mr Sample

We're sure you already appreciate the benefits of Company Barclaycard. You have been using your Business Chargecard, to monitor and control your business expenditure for some time now, and we have noticed that your company is booking regular business trips abroad. For this reason we'd like to offer you the opportunity to switch to another of our cards that may be better suited to your needs - the Company Barclaycard Corporate Card.

As with your current card, our Corporate Card still lets you set limits and monitor spending by individual card. We also still provide all the relevant information to help you keep a close rein on your business purchases. The Corporate Card provides different benefits suited to your business needs and costs no more than your current card. The difference lies in a suite of new travel benefits to make your travel experience more comfortable and convenient. It gives you access to our Global Assist service in association with Travelex, which includes travel accident cover amongst other services.

The travel benefits associated with our Corporate Cards will replace the add-on benefits of your current Business cards, but we're certain you'll find they will be more useful to you and your business.

If you'd like to make the change it couldn't be easier - just complete the enclosed form and return it to Company Barclaycard. You'll find more information in the brochure enclosed or you can phone 0845 605 0845, please quote reference **9063** or visit our web site www.companybarclaycard.co.uk.

This is an excellent opportunity to ensure your cards are the best match for your current spending patterns.

Yours sincerely
